Thank you so much for helping! This is an important ministry, which we can't run the without caring volunteers! People are counting on you, so please arrive at the nursery **15 minutes before the service** so you can be available when members and visitors come to use the nursery.

If you need to switch dates, please call someone from the volunteer list, and then let me know. Please, if you see any errors or conflicts on the schedule, contact me. I try to honor your requests, but don't always keep it straight. I'd like to work with you. Thanks!

Responsibilities:

Adult caregiver: check in children, take care of diapers and feeding, help supervise youth caregivers, and generally be in charge.

Students: play with children, pick up and wash toys and follow the adult's instructions for you.

Being in nursery is important! You may be the first...

- ...person a child recognizes God in**
- ...person to pray for a child**
- ...person a visitor at Fellowship meets**
- ...and more**
